GIL FAMILY ESTATES — 109 YEARS OF WINE MAKING

Focus on old vines and native varietals that reflect each region:

Average age of vineyards is 65 years old; some are over 100 years old!

Organic Farming: No pesticides or herbicides used.
EU Organic Vineyard Certification at 9 estates – 27 wines; 2025 total of 4,447 acres of Certified vineyards.

Dry Farming: Water conservation, dry farming of indigenous varietal estate vineyards.

Minimal use of Additives and Sulfites: Levels far below EU standards; stricter than U.S.

Hand-harvesting: All vineyards

“Always farmed organically - now certified!”

Are truly words you can measure.

Technology to keep improving quality and innovating to offer better wines, while reducing the impact on the environment.

Optical sorting machines select **only the best grapes**

Solar Power: Solar farms provide all, or part, of the electricity used at four wineries.

Net-Zero Electricity Consumption: As of 2023, solar installations produce enough electricity to match all 11 of their wineries' consumption.

Zero-Waste Winery: Winemaking by-product made into organic compost at Juan Gil.

Lightweight Glass: Bottles for volume brands – reduced carbon footprint.

All wines in the Gil Family Estates Portfolio are produced under Vegan practices.

Gil Family Estates' practices reduce the impact on the environment & show their true love for the land!

- Gil Family Estates offers leading quality to price ratios throughout the portfolio.
- The brands have achieved over **550+** notable accolades based on quality across all major publications.
- Offers an array of wine style differentiations with a sense of pride of the indigenous varietals.
- Each winery has a sense of place throughout ten major Spanish regions.
- Packaging design is impactful and distinctive with many whimsical labels.

The GFE U.S. Team is laser focused on growing the brands through its distribution partners and channels.

BODEGAS JUAN GIL — D.O. JUMILLA

110th Anniversary

JUAN GIL GUERRERO

1916 {110} 2026 | ANNIVERSARY
Special Edition

Captivating cherry red with glints of ruby in the glass. The wine shows aromas of dark fruits, blueberries, and cassis that are complemented with cocoa, licorice, and delicate wild herbs framed by an elegant, toasted undertone.

The palate is rich and mature, with silky, well-integrated tannins, and a lively acidity that adds freshness. All components culminate to a lingering finish echoing the fruit and spicy elegance.

Made with organic grapes
100% Monastrell

Certified Organic Vineyards

Bodegas Juan Gil, founded in 1916 by Juan Gil Jiménez, is the Gil Family's first winery, created with the goal of showcasing the quality of the native Monastrell grape.

For over 109 years, the winery has been consolidated and improved, applying technological advancements to the traditional knowledge passed down through the years.

JUAN GIL SILVER ORGANIC MONASTRELL

Aged Red – 12M French Oak
100% **Organic** Monastrell

This flagship wine, is made with **certified organic Monastrell** grapes from over 40-year-old vines. The chalky and rocky limestone soils, poor in nutrients, are ideal to grow the Monastrell varietal. An intense cherry red color, aromas of ripe fruit and a long and spicy finish with evocations of toasted French oak. Tannins build to the finish. A complex wine with great balance, concentration and length.

The appellation of Jumilla, located about 60 miles inland from the southern Mediterranean coast in Murcia, is known for the Monastrell varietal, with over 80% of vineyards planted with it. The majority of our vineyards average in age between 40 and 100 years with very low yields (approx. 2,200 lb/ac).

Monastrell is a thick skinned grape that thrives in the harsh conditions of the climate and terrain, leading to wines with great structure and intense color and aromas.

ALBACEA — ORGANIC

Aged Red – 4M French & American Oak

Bodegas El Nido was envisioned by the 4th generation of the Gil Family as a tribute to the old Monastrell vines, cloned from the ones originally planted by their great-grandfather, Juan Gil Giménez.

These vines, some near 90 years old today, are planted on their original, un-grafted root stocks at 1,300 to 2,300 feet. The continental climate of the region is dry, with just 10-12 inches of rainfall annually. Rocky and sandy limestone soils provide excellent drainage and allow the vineyards to be dry-farmed. Extreme diurnal temperature changes, especially in the growing season, ensure even paced ripening concentrated berries with complex aromas and flavors.

CLIO — ORGANIC

Aged Red – 24M French & American Oak
Organic Monastrell & Cabernet Sauvignon

The wine exhibits a glass-coating opaque purple color. The nose is expressive with pain grille, underbrush, brier, minerality, blueberry and blackberry fruit. On the palate is a plush, opulent wine with great density, savory flavors, and a lengthy finish.

The Gil family invited renowned winemaker Chris Ringland to be the principal vintner on this project. Chris also works with Monastrell planted in his native Australia, and wanted to produce long-lived wines balancing the bold sweet fruit of the Monastrell grape with Cabernet Sauvignon.

El Nido was conceived with a higher percentage of Cabernet, whereas Clio was designed with a higher percentage of Monastrell.

A BODEGAS ATALAYA — D.O. ALMANSA

VIÑAS FAMILIA
GIL
1916
FAMILY ESTATES

Founded in 2007, the focus of Bodegas Atalaya is to produce wines from Garnacha Tintorera and Monastrell...the most emblematic grape varieties of Almansa. Since the first vintage, the goal has been to reflect the character and genuine essence of the land and the grape through wines, each showcasing different proportions of Garnacha Tintorera.

Located in the eastern part of Albacete, between Valencia, Alicante and Murcia; it's a transitional zone between the Castillian meseta (plateau) and the Mediterranean Sea. The vineyards are located on poor soils, rich in limestone, at an altitude of 2,300-3,300 ft. The area has a dry continental climate with very low rainfall (less than 14 inches/year) which creates the perfect conditions to keep yields low, leading to high quality fruit with great concentration of color and flavor.

Our estate vineyards of Garnacha range in age from 35 to over 100 years old and are planted in slate-based soils along the slopes of the Ateca and Moncayo Mountains at altitudes of about 3,000 feet. The climate is Continental with cold winters and hot summers with an average yearly rainfall of 12 to 21 inches (increases at higher altitudes). Rocky slate soils retain the heat of the day, radiating warmth at night when the temperatures drop drastically, especially during the ripening period. Clay loam deep below the rocky slate allows the vines to obtain moisture and the vineyards to be dry-farmed, lending to low-yields, intensity and structure. Resulting wines have a concentrated flavor with refreshing minerality and structure, reflecting the unique character of the region.

Founded in 2008, Bodegas Tridente is made up of over 40 small parcels mainly of old vine Tempranillo, the oldest of which is "Rejón" planted in 1889.

The vineyards are located between Villanueva de Campean (Zamora) and El Pego (Toro), which are two separate appellations in the Spanish D.O. system. This is why the wines are bottled under the broader V.T. Castilla y León appellation, allowing them to blend the best quality grapes from both neighboring regions.

D.O RUEDA

Rueda is the stronghold of rich whites and the origin of Verdejo. These wines with multiple mineral aromas and balanced acidity come from a selection of aged vines, grown on sandy soils covered with pebbles.

Rías Baixas boasts a number of high-quality grapes; chief among them is Albariño, occupying more than 90% of the D.O.'s vineyard area.

The soils are largely granite with some chalk and clay. The earth here offers lots of minerals but few nutrients, making it perfect for wine-growing. The slopes encourage good drainage so the vines still reach deep into the earth. Given the high rainfall, drainage is important. The neighboring Atlantic Ocean provides not only rain but also humidity, so growers have traditionally favored trellising their vines with pergolas, allowing air to circulate around the grapes, thereby preventing rot and fostering ripening. Fortunately, late summer is usually the driest part of the year, providing perfect ripening conditions for harvest in October.

VINEYARD GRAPES

Our native grape sprouts from sandy and granitic soils, but porous with frequent rains. The vines look to the sky to the southwest, in prayer to the sun that ripens the bunches. With the nearby murmur of the Umia river and its waterfall, the grape is hand-picked just when it concentrates all its varietal character.

Bodegas Morca was founded by the Gil Family in 2015 in the appellation of Campo de Borja in Aragón, Spain. The vineyards acquired had been owned by families for generations and was planted with Garnacha vines up to 87 years-old.

The Gil Family has made it their mission to care for them as if their own ancestors had been the ones to plant them, going as far as to name the vineyards after their previous owners. A reminder of the sense of responsibility to the land and the community that defines the Gil Family projects.

From the heart of Rioja Alavesa comes the most endearing project of the Gil Family. Founded in 2017, Rosario Vera is the newest winery from Gil Family Estates.

It is located in the town of Laguardia in the D.O.Ca. of Rioja, Spain. The Rioja Alavesa area was chosen because of its proximity to the Sierra de Cantabria. The mountain alignment isolates La Rioja from maritime influence. The precipitations, that take place are mainly in spring and autumn. Rosario Vera's vineyards consist of small plots, planted 15 to 60 years ago. Calcareous clay soils, the climate, as well as high altitude, make a perfect place to grow vines and obtain high quality grapes made with grapes from the heart of Rioja Alavesa from vineyards with low yields planted in limestone-clay soils.

HONORO VERA ROSÉ D.O. JUMILLA — ORGANIC

Young Rosé

Organic Tempranillo & Syrah

A fresh rosé that is serious but quaffable, straightforward and with simple, clean aromas and flavors. Strawberries and cream, cherries, and watermelon are balanced with fresh herbs.

2023v | **91 Points** | Hudin

The Honoro Vera wines are produced at Gil Family Estates wineries in four appellations in Spain: Jumilla, Calatayud, Rueda, and Rioja. In each region, the goal is to showcase the character of the native varieties. These wines are made from high quality grapes, planted at high altitudes (generally over 2,300 feet), from vines of at least 30 years of age with little production. The soil beds of limestone and sand offer very poor nutrients, which is quite ideal for this type of crop. The end result gives the wines complexity and balance that over delivers for the price. Fruit forward, with soft tannins, and fun, modern labels.

In each bottle is a different expression of our love for the land.

BODEGAS JUAN GIL — D.O. JUMILLA

New Release!

JUAN GIL RESERVA SOLERA BRANDY

Born from the first grapes of harvest, Juan Gil Reserva Solera Brandy is the purest expression of our estate vineyards in Jumilla, where the Gil Family has cultivated native Monastrell for generations.

Aged through a rare dual process, the brandy first rests statically for 12 months in 300-liter American oak that once held Juan Gil wines; earning its Reserva designation. It then continues its journey under the traditional criaderas y solera system, maturing for at least six additional months in 225-liter French oak barrels, also seasoned with our wines.

This combination of stillness and movement yields a spirit of remarkable depth and harmony, naturally rich in color and flavor, with notes of dried fruit, vanilla, toasted oak, and subtle spice. Smooth, complex, and authentically Spanish, Reserva Solera Brandy represents the next chapter in a legacy built on craftsmanship, patience, and purpose.

PACO SOLERA BRANDY

*Soon to be Released for the 5th Generation,
Francisco "Paco" Gil.*

Spicy nose with notes of vanilla, ripe fruit, figs, orange peel, and light toasted hints. Broad and powerful with sweet, well-integrated tannins. Structure and balance with a long, spicy finish of dried fruit, vanilla, subtle cocoa and sweet spices.
